A CERTAIN CURE FOR SUMMER COMPLAINTS.
BIGELOW'S ALTERATIVE.—A CERTAIN CURE FOR DYSENTERY, DIARRHOEA, CHOLERA MORBUS, and all Summer complaints.
Price, 50 cents.
GEORGE W. BLEECKER, Proprietor.
New York.
This may certify, that I have tested the virtues and efficacy of "Bigelow's Alterative," and find it to be a safe and efficacious remedy for those very painful and often fatal diseases which at different periods affect both old and young, viz: Dysentery Cholera Morbus, &c. Believing it to be a valuable medicine in the above cases especially recommend it to those who may have the misfortune to be afflicted with Dysentery and the like, and having given it a fair trial in my own practice, which served admirably the purpose for which it was given, I feel no hesitancy in giving it my sanctioning assurance of valuable medicine.
L. S. WRIGHT, M. D.
61 McDougal street.
"I have used "Bigelow's Alterative" in my family and have never found it to fail, when all other remedies administered by and under direction of Physicians have proved ineffectual. I think it a perfect corrective for Dysenteric and all bowel complaints.
GEO. W. BEEBE,
New York, March 22, 1852. 47 Wall street.
☞ We can add our testimony to that of others of its great efficacy in our own case, when prostrated to an alarming degree by bowel disease. It was the only medicine that gave relief and one now always kept in the family.

WILBOR'S COMPOUND OF
PURE COD LIVER OIL AND LIME.
A CURE FOR CONSUMPTION, COUGHS, COLDS, ASTHMA, BRONCHITIS, GENERAL DEBILITY AND ALL SCROFULOUS HUMORS.
THE proprietor has succeeded from directions of Professor Stone, in combining the Oil and Lime so perfectly that the taste of the Oil, which is so nauseous, to persons generally, is entirely overcome, and it can be taken by the most delicate females with pleasure. And as regards the benefit of this article over the clear oil, the following case, by Professor Stone, is sufficient to convince the most sceptical. The young lady was 24 years of age.
"Her disease was one of unmixed phthisis, which had been expected to terminate in the course of a few months fatally. The upper part of both her lungs was filled with tubercles, and in some places were beginning to soften. The case was evidently a bad one. The treatment of Cod Liver Oil was at first used, but without marked improvement. The Phosphate of Lime was then administered with the Oil, and the result, as in the case of many others, was soon apparent. The patient was rapidly getting well."
This preparation does not like the Cod Liver Oil become rancid which makes it very desireable, for Persons travelling as it keeps fresh for a long time.
Be sure and get the genuine, Manufactured *only* by ALEX'R B. WILBOR, Chemist, 156 Court Street, Boston.

AYER'S
CHERRY PECTORAL
For the rapid cure of Colds, Coughs, Bronchitis, Whooping-Cough, Croup, Asthma and Consumption.
Many years of trial, both of ourselves and our friends and the public, have given to this medicine a reputation and popularity, by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the established belief it has conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
While it is a fraud on the public to pretend that any one medicine will infallibly cure—still there is abundant proof, that the Cherry Pectoral does not only as a general thing, but almost invariably cure the maladies for which it is employed.
As time makes these facts widely and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant, to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet is constantly, CHERRY PECTORAL is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries, it is coming to be exceedingly used by the most intelligent Physicians. In Great Britain, France and Germany, where the medical resources have reached their highest perfection, CHERRY PECTORAL is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of the lungs. Also, for children it is safe, pleasant, and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.
The Cherry Pectoral is manufactured by practical Chemists, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently, can be relied on as genuine without adulteration.
We have empowered here to furnish the community with a medicine of such intrinsic and priority and worth as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be; and trust, by great care in preparing it with chemical accuracy, of uniform strength to afford Physicians a new agent of which they can rely for the best results and be satisfied with a remedy that will do for them all that medicine can do.
Applied to any one of which sheet lead may be applied, and is specially adapted to lining water tanks and reservoirs and also for water closet work.
Grateful for past favors, he hopes by strict attention to his business to merit the approbation of his customers. All work warranted not to fall until worn out.

"A LITTLE KNOWLEDGE IS A DANGEROUS THING."
THIS saying has but a partial application.—A very little knowledge of the physiology of the hair teaches that want of care deprives many of that most becoming ornament to the person. Those who would desire to preserve their locks from baldness, cure dinnerness on the scalp, prevent discoloration, and secure a glossiness and softness of texture, should use Bogle's Hyperion Fluid.
Many look upon the process of shaving as one which requires a simply mechanical attention to accomplish perfectly. It is not so. The conditions which furnish the smoothest and easiest accomplishment are a healthy state of the skin, and a suitable lather to preserve its softness. Bogle's Amole is the most approved article for softening and smoothing the skin, and imparting to it an elasticity inconsistent with any chance of irritation, or eruptions which follow it. Sold by Wm. Bogle's Agents.

Dr. Marchisi's Uterine Catholicon!
THE UNDERSIGNED, HAVING BECOME AGENTS FOR THIS INVALUABLE MEDICINE, would respectfully invite the attention of those afflicted to the gratifying success that has attended its use wherever introduced, and its happy adaptation to the cure of the distressing diseases for which it is offered.
THIS CATHOLICON is in truth one of the GREATEST MEDICAL DISCOVERIES OF THE AGE, and is destined to become identified with the health and happiness of
ALL FEMALES.
This declaration is based on the fact that it will cure more than three-fourths of a class of the most prevalent diseases, known as
FEMALE COMPLAINTS
and which have heretofore resisted the skill and efforts of the most accomplished Physicians of all countries, to a degree beyond that of almost every other malady to which the human family is subject. It has already received the approbation and liberal patronage of very many prominent members of the Medical Faculty in the United States, owing to which the fact of its merits and claims to the confidence of the afflicted is *CHEAPLY AND EASILY TESTED.* Of this additional proof will be found in the pamphlet, to which the attention of Ladies and gentlemen is respectfully invited.
This medicine has never been introduced by empty, puffy and interpolations, nor is it intended that its present popularity shall be sustained by any such medium but its merits and the approbation of the public.
The CATHOLICON is not a "cure-all," but is prepared expressly for those complaints incidental to the respectable female whether married or single—PROLAPSUS UTERI, FLUOR ALBUS, CHRONIC INFLAMMATION AND ULCERATION OF THE UTERUS, IRRITABLE AND ULCERATED STATE OF THE NECK OF THE UTERUS, INCIPIENT HEMORRHAGE, PAINFUL, SUPPRESSED AND IRREGULAR MENSTRUATION, &c., with their accompanying evils. Cancer excepted, no matter how severe, or of how long standing.
☞ Pamphlets can be had gratis, of the agents, G. C. HAZARD, R. J. TAYLOR.

FRENCH PERIODICAL DROPS.
MRS. S. M. CUDWORTH, No. 109 High street, Providence, R. I., would say she has, at great expense, obtained from Dr. D. C. Harrington, the original recipe for manufacturing, together with his plate for putting up the medicine known as the
FRENCH PERIODICAL DROPS.
discovered by J. Harrington, M. D., while practicing in the hospital in Paris, under the immediate observation of the renowned RECORD of Paris and ACTON of London.
The Drops are invariably certain to regulate the Female System and can be taken without hazard. They are known by hundreds of females in this country to be the only preparation ever discovered that has proved invariably certain in all cases of Suppressions, irregularities &c. One trial will convince the most skeptical and ever after will they be induced to try any other. Ladies who have often been deceived by purchasing Pills and Nostrums from Male and Female Impostors, under pretence of effecting cures medicines which in nineteen cases out of twenty have an injurious effect upon the system without effecting the desired result or any sign of it, should shun these hipeds and use none but the genuine FRENCH PERIODICAL DROPS, the efficacy of which has been tested in hundreds of cases and NEVER FAILED to effect a speedy cure without any bad result. The drops are the result of an extensive practice and not discovered by accident. To eulogize their virtues would not add to their merit. We would only say try them. They will be sent to any part of the country secure from observation by addressing (post paid) MRS. S. M. CUDWORTH, 109 High *Street*, Providence, R. I., and at no other place in Providence.
Full directions accompanying each bottle.—Price Five Dollars.
N. B. The usual discount to those that wish to sell again.

FORMODENTA.
STRANGE, indeed, that so few realize how essential to female beauty, and manly elegance, even a fine set of polished teeth; nothing contributes more to adorn it; nothing detracts more eccentricity from it, if neglected, and consequently decayed and disfiguring teeth. They are as essential to health as to beauty, for it is impossible to inhale through decayed or unclean Teeth, without affecting the lungs and stomach, frequently to a serious extent. In offering as a remedy for this evil the FORMODENTA, MESSRS. HAZARD & CO. are satisfied that they furnish at once the most perfectly safe, elegant, agreeable, effectual, and withal cheap preparation known for cleaning and polishing the Teeth; hardening the gums, purifying and perfuming the breath. In its present improved state it has received the approbation of every one who has used it, and it just what it assumes to be! For full, receding or diseased gums, the AMBER GUM WASH accomplishes in producing a rich and agreeable balm in the mouth, cleansing it effectually, and will cure any ordinary disease of the gums in a short time. Together, they form an elegant and necessary appendage to every toilet. No lady should be without them.

Whig National Nominations

FOR PRESIDENT,

OF NEW JERSEY.

OF NORTH CAROLINA.

Electors.

ELISHA HARRIS, of Coventry.
ISAAC P. HAZARD, of Newport.
AMOS D. SMITH, of Providence,
CHARLES ALLEN, of North Kingstown.

☞ The late horrible accident on board the steamer Henry Clay, on the Hudson River, by which nearly an hundred lives were lost, calls loudly for some prompt action in regard to the matter, and the administration of exemplary punishment to those having charge of the boat. It is very seldom that we hear of serious accidents by railroads or steamboats in England; and the reason is that there the authorities hold Captains, pilots, engineers, &c. strictly accountable for all accidents, no matter from what cause they arise,—in all instances those men to whom lives are entrusted in transportation, are dismissed from service and are otherwise severely punished, and disabled from the exercise of similar authority forever afterwards. Let us have the same wise provision of law in this country, and let the same just protection be given to travellers here, and we shall soon hear of a far less number of accidents than are now constantly occurring. Almost all of these terrible catastrophes are caused by carelessness or folly; we scarcely open a paper that it does not contain an heart-rending account of a collision of steamers or cars, or the burning or blowing up of the former,—and in nine instances out of ten, all these accidents might be avoided if proper prudence was exercised, and a proper regard was had for the lives of passengers. The people of this country have become so much accustomed to these things, as every day transactions, that but little is now thought of them. The first account which is recieved gives a sudden shock to the nervous sensibilities, causes some little talk,—and is then forgotten,—or else the remembrance of that accident is brushed away by the startling news of another, and still more horrible; and so we go. Beyond all doubt, the Henry Clay was racing; at the time she took fire, and had been doing so all the passage down; the surviving passengers testify to this, and that they expostulated with the proper officers, and that they were told by them that there was no danger. The only way to put an end to such things is to punish severely those who are guilty, and this will be a warning to all concerned.

☞ We call the attention of our readers to the advertisement of Dr. Bodge, the celebrated Phrenologist, in another column. Dr. B. has only been in town a few days, and yet his rooms, at the Touro House, are thronged with people, and he is constantly employed in the examination of heads, and filling out charts, giving the delineation of characters, &c. Dr. Bodge is one of the best Phrenologists whom we have ever ever met, and he thoroughly understands his profession; he does not merely examine a head and then *guess* at the traits of character,—but his examinations are founded and made upon purely Scientific principles, and the advice which he gives, is truly valuable, and in the cases of young persons, will materially assist in the formation of character, and the conduct of individuals, if followed, in all the subsequent relations of life.

Dr. B. will not remain in town a great while, and we advise all who are now here, both citizens and visitors, to give him a call, and procure one of his admirable and accurate charts.

☞ Remember the Excursion to New London, this morning, by the fine steamer Worcester. She will leave the Long Wharf, at 11 o'clock, and return again this evening. It will be a delightful trip, and we have no doubt but that there will be a large number of passengers, and that all will enjoy themselves exceedingly. Fare, only one dollar.—There will be a band of Music on board.

☞ Among the arrivals at the Ocean House, we notice Bishop Polk, of Louisiana, the beautiful Madam Bishop and the celebrated Boches.

☞ A splendid Serenade was given by the Germania Musical Society, yesterday morning, at the Cottage of Mr. W. C—— and at the Ocean House, to Mrs. and Miss T——, on account of a Boston gentleman.

☞ Madame Anna Bishop's Concert took place last evening, at the Ocean House Hall, which was crowded by visitors and citizens,—comprising much of the intelligence, beauty, wealth and fashion of the place. Madame Bishop is a beautiful woman, and it is worth the price of admission simply to enjoy the privilege of looking at her. Her face beams with intelligence, and her eyes speak volumes of the unwritten poetry of her soul. We do not wonder that so many have been fascinated by her; for, stoical as we are, we were quite enraptured, yesterday, while enjoying her society, even for a short time, in her parlor.

Last evening she sang gloriously, and brought down the house in repeated raptures of applause,—all of which testified to the great and merited popularity of the fair songstress. Fortunate, indeed, were those who enjoyed the privilege of listening to her on this occasion.

The great Bochea fairly surpassed himself; every one was delighted, and his praise was on the lips of all.

Mr. Siede did nobly, and gave universal satisfaction.

Last night will long be remembered by all lovers of music, and the exquisite notes of Madame Bishop will long ring in the ears of those present,—while her charming and beautiful face will be daguerreotyped upon the hearts of all, especially the gentlemen, through all coming time.

Her singing is more natural and far sweeter than that of Jenny Lind; the latter may possibly enjoy a more extensive reputation,—but Madame Bishop has the power to touch the heart and the soul, to a far greater extent than ever Jenny Lind possibly could. The music of Madame Bishop will live longer in the remembrance of those who have heard her than Jenny Lind's ever can.

We are happy to be able to announce that, by request and at the earnest solicitation of many visitors who were unable to attend last evening, Madame Bishop has consented to give one more Concert at the Hall of the Ocean House, tomorrow evening, which will *positively* be her last in Newport, as she is absolutely compelled to leave town the next day. Let the Hall be crowded. Particulars to-morrow.

☞ Among the many distinguished visitors now sojourning in Newport, we notice E. P. Whipple, Esq., who is the guest of the Rev. Dr. Choules. Mr. Whipple's name must be familiar to our readers as a writer and lecturer of the very first class. He delivered the Phi Beta Kappa Oration at Yale College, last week, taking for his theme, the American Mind; competent judges declare it to have been a masterly effort, and this we can well believe, from our own experience of Mr. Whipple's powers. As a Reviewer, he confessedly stands at the head of that class of writers in this country; and we know of no critic across the Atlantic who surpasses him in any of the acquirements of a great analyst of Literature. We have just seen a new work on American Literature, by an English writer, in which Mr. Whipple's powers are placed on a par with those of Jeffrey and Macauley. Can praise go higher?

☞ The Arrivals at the Hotels are necessarily crowded out this morning.

☞ The Ladies' Benevolent Society of the Central Baptist Church will hold a Fair at Armory Hall, commencing this evening and continuing tomorrow, day and evening. They have a very large and beautiful collection of Fancy and useful articles to be disposed of,—and we advise all our readers to give them a call, and see what they have for sale.

The Hudson River Slaughter.—The press in all parts of the country, so far as we have heard from, speak out in tones of condemnation of the parties who are presumed to be guilty of precipitating the melancholy catastrophe, the details of which have burthened our columns the last day or two.

The universal cry is, Don't let your investigation eventuate in nothing.—Don't let your indignation doze out in indignation meetings only, but keep at work until some practical gurantee be given the public that they may venture to travel by steam without being drowned, burnt to death, or blown into the air.

Machinery Oil from Rosin:—We find in the Middletown "Whig press" the report of a committee appointed by agents of the Lowell Mills relative to the nature of oil distilled from rosin. It is there stated, says the Press, that on looms and other machinery of heavy bearings, one half less power is required with mixture of rosin and sperm oil, than with the sperm alone, and that its substitution will effect an annual saving of three eighths of the quanity of sperm oil required in the Lowell mills.

Louis Napoleon's Health.—*Grand Fete, &c.*—The Paris correspondent of the London Leader says:

Louis Bonaparte is now regularly settled for the summer at St. Cloud.—Excesses of all kinds have marvellously changed the man. He is said to be quite out of health; and his doctors tell him decidedly, that if he will not change his manner of living, they will not answer for his life. He is also said to be worn down with anxiety and work, dejected and demoralized. He feels the falseness of his position, and the difficulty of escape.

Pending the grand tour to the South, the Government is preparing a fete of dazzling magnificence, to gratify the well-known taste of the Parisian population for "fire and smoke," and all the "pomp and circumstance of war."—The affair is to take place on the 15th of August, Saint Napoleon's day. The spectacle will consist of the crossing of Mount St. Bernard, by the French army, performed by 15,000 men, under arms. The heights of Chaillot are destined to be the theatre of this exploit and Trocadero is to be transformed into a Mount St. Bernard for the occasion.—In the morning we shall have a pantomimic millitary display of the troops crossing the mountains, with sham combats. At night Napoleon, on horseback, will be visible by the aid of thousands of colored lamps. During the performance there will be a grand snow storm falling on St. Bernard and the troops, concluding with an immense display of fire-works, in the midst of which will appear a gigantic eagle, surmounting the figure of Napoleon. This fete will cost twenty-five millions; but Bonaparte will not grudge the money, if he can but succeed in dazzling the people; for he feels its hostility, and its affection must be bought at any cost.

General Scott will, beyond all question, receive the votes of four and probably five of the New England States; of the four Middle States—New York, New Jersey, Pennsylvania, and Delaware; of five at least of the Southern States—Maryland, North Carolina, Louisiana, Kentucky, and Tennessee; and of four of the Western States—Ohio, Indiana, Michigan, and Wisconsin, with a fair prospect for Iowa, Illinois, and California. Here are seventeen States certain for Scott, giving 202 electoral votes, with a fair chance for four more States, giving 27 electoral votes. Maine, at least, we consider almost as certain as any State in the Union, and this will swell Scott's vote to 210 quite enough for all practical purposes. Georgia and Florida are the only States which went for Taylor that will not vote for Scott, while he will get three times as many that did not go Whig in 1848.

The prospect of a Whig victory in New York never was so promising as at present, and the Whig party has not been so well united there for years. All accounts assure us that the Empire State is absolutely certain for Old Chippewa; while the friends of Pierce will scarcely be able to make a show of opposition. The Keystone State is conceded to Scott on all hands, or all but the mere politicians and office expectants. She will give Scott fifteen thousand majority. Ohio is no less certain for the hero of Lundy's Lane. The Cincinnati Gazette says there is not a Whig county in the State where Scott's majority will not be much larger than Taylor's, nor a Locofoco county in which Pierce can get Cass' majority. Here are the three largest States in the Union, every one of which will vote for Scott. With these for him as a capital to start upon, he cannot be beaten.—*Detroit Tribune.*

Austrian Courtesy to an American Minister.—A letter dated Trieste, May 24, states that quite a distinguished compliment was paid to our Charge d' Affaires at Naples, the Hon. Edward Joy Morris, on his arrival there that day from Athens, in the Austrian steamer Muhmoudieh. As soon as the steamer was signalised down the gulf she run up the American flag, and kept it flying at her masthead until he had debarked. The floating of the stars and stripes on an Austrian port, is an extraordinary as it is indicative of the renewal of friendly feelings towards the United States.

The Mexican Minister.—It is not true, we are assured, that Mr. Letcher has vacated the Mission at Mexico, by the request of that Government. Mr. L. submitted the acceptance of the Tehuantepec Treaty, as a *sine qua non* for continuing relations with Mexico. The Minister of Foreign Affairs, Mr. Ramirez, declined the approval. Under these circumstances Mr. Letcher declined to remain

WASHINGTON, D. C., June 1, 1845.

Dr. Geo. B. Green—Dear Sir.—In your note of this morning, you ask for an expression of my opinion in regard to your medicine, called Oxygenated Bitters." It affords me pleasure to state, that from the experience I have had, in its curing a severe attack of Dyspepsia in my own family, and from the wonderful effects which it has produced in other and more severe cases, arising in families of members of Congress, with whom I am acquainted, I think it an invaluable medicine, and hope that such circulation will be given to it as will bring it within the reach of all who are afflicted with that distressing malady. Respectfully yours, S. FOOTE.

The pamphlets accompanying the medicine abound with certificates of the most satisfactory character, and such as will convince the most incredulous, that it is invaluable as a cure for Dyspepsia, Asthma, General Debility, Bronchitis, Nervousness, &c., &c. They can be had of the Agents gratis.

PHRENOLOGY.

DR. BODGE, of New York, has taken an Office in the Touro House, where he is prepared to furnish the largest and most perfect CHART ever yet published, for recording the PHRENOLOGICAL AND PHYSIOLOGICAL DEVELOPMENTS of any and all individuals. It contains 100 Engravings, and 134 pages. The object of this Chart is to teach learners those Organic Conditions which indicate character; to expound Phrenology and Physiology, in its highest proof—states laws and results, embodying recent discoveries—and crowds into the fewest possible words and pages just what learners need to know.

Short, yet clear, is its motto. Its numerous illustrative engravings give the results of very extensive professional observations and experience. To record character is its second object. In doing this, it describes those Organic Conditions which affect and indicate character. It shows how to perfect and improve Character. And it costs only $1, 00; or to Clubs of 6 or more, 75 Cents, with verbal and written descriptions of Character, Talents, Virtues, Evil Tendencies, Liabilities to Err, together with directions to prevent Excess; directions to parents and teachers, touching the government of children; what faculties require to be cultivated, and what restrained—how to do this; directions to the most suitable occupation, selections of help, partners in business, and companions for life, &c., Families and Parties visited. A Private Class will be formed for teaching Pupils to examine Heads.

The following editorial is from the Boston Daily Bee: PHRENOLOGY.—Dr. C. Henry Bodge, a gentleman thoroughly conversant with the principles and science of Phrenology, we recommend to all who may be desirous of obtaining knowledge of themselves. 'Know thyself,' is an important command, and with a full explanation of nature's promptings to action and disposition, one may most certainly receive benefits from such a knowledge. jy30

FACTS FOR THE CANDID—PLEASE READ THE FOLLOWING LETTER.

To Dr. Weaver, New London, Conn.

This is to certify that I, the undersigned, have been afflicted more or less with sore legs for three years more, not deep but on the surface, and discharging a thin watery substance. I have tried many kinds of medicine, and received all kinds of prescriptions, which were offered as well from Quackopathy and Allopathy as from empathy, and all to little or no purpose. Sometimes they would appear something for a few weeks, and then worse, until I finally began to be somewhat discouraged. About this time I saw a certificate in a newspaper, signed by the Hon. Joel Loomis, of East Lyme, Ct., stating that his case, and the benefits he had received from your system, but I was a little reluctant, until I wrote him a letter making the necessary inquiries, and when I received his answer, which appeared to be honest, and he detailed his case, (which was one I had only intimately,) and advised me to try it, that my confidence became pretty strong. I immediately obtained of your agent in Taunton, Mr. S. H. Dexter, a bottle of your Syrup, and a box of Ointment, and went to work according to directions, and in about a fortnight I received a considerable improvement. This was the first of last October, and by January they were all healed up smooth and sound, and remain so still. And now let it require any time, it would be very difficult for me to assume a state of mind to make me willing to be placed back again as I was last October, and I would advise all who are afflicted with the like disease, to obtain immediately some of Dr. Weaver's Syrup, and go to work with it. You may not receive so much benefit from it as I have, but it will do you no harm if it does you no good. The world is full of what is called quack medicine, but after all, there is some of your so called quack medicine that is a sovereign remedy for some disease, and the best way to know is to try and not let yourself. Necessity compels a man sometimes to throw all his prejudices to the wind, and to try medicine which he has heretofore despised and ridiculed, and also Doctors—and is reminded not best to put his hand on his mouth, and his mouth in the dust. My age is seventy-one years.

Yours Respectfully,
Taunton, March 26th, 1852. SETH J. KEELY.

N. B.—I do not mean to stigmatize the above named medicine, as I understand that Dr. Weaver is a regular bred Physician of the old School. jy

COMPETITON, ICE CREAM.

MANY of the consumers of Ice Cream at Newport, (being from various parts of the country) not being aware of the superiority of some Ice Cream to be had in town, over that which has been generally furnished, and that as the subscriber believes that it would be to his interest to have this fact more generally known, further to correct the impression that the charges made for his Ice Cream, than others, has used the *Daily News*, as a means to inform the public; hence his advertisements.

He would add that "an increased demand" for Ice Cream may be consequent upon an increased number of consumers; and not the positive guarantee of its superiority over all other creams that is manufactured in this place," He might assert that the demand for his Ice Cream this season has increased three hundred per cent, which fact his books will attest. As to begging the community to try his Ice Cream,—if respectfully solicitating patronage be begging, then he will beg, pledging himself, to furnish a fair remuneration for that given; something superior to any thing furnished in the cream line; will you be pleased to try it?

The Springs are accessible by the Central Railroad to Duncannon, where a coach will always be in readiness, on the arrival of the cars from the East, to convey passengers who desire to visit the Springs, 11 miles N. W. of Duncannon. All persons leaving Philadelphia in the morning train of cars can arrive at the Springs early the same evening. The coach will commence running daily on and after the 1st day of June next, and continue during the season, leaving the Springs every morning at 8 o'clock to reach the cars going East. There will also be a coach be run daily from Dunlap's, by Mr. Hendle, on the arrival of the cars from the East, for the Springs, the distance being 11 miles—the route passing by the Carlisle Sulphur Springs, and Stuart's Gap and affording one of the most delightful views of the Cumberland Valley to be found.

The terms for boarding will be moderate, and every attention paid to those who may be pleased to pay him a visit during the season. Ample provision has been made for gymnastic exercise and pastime amusements, while Sherman's Creek affords delightful fishing, as well as sailing in boats.

LOVEL'S WAHFENE.

THIS admirable preparation for restoring the hair, in cases of baldness, preventing it from falling off, and restoring the natural color of the hair, where it has become grey, rendering it clean, luxuriant, and glossy, preserving the rich appearance of youth, even in old age,—and restoring every hair to its original shade, by its invigorating power upon the bulbs that furnish nutriment and color to the capillary tube, still retains its unparalelled popularity. If the directions are strictly followed, and the hair is not restored to its original color, as promised, the money will be returned, as per Warrantee of H. T. Lovel, enclosed in the wrapper of every bottle.

A CARD.

DOCT. F. GOURAUD,

Medical Doctor, a graduate of the Academy of Medicine and Surgery of Paris, France,

SURGEON OCULIST,
DENTIST,
AND PROFESSOR OF CHEMISTRY.

has the honor to apprise the Ladies and Gentlemen of Newport and vicinity; and, in general his old acquaintances and former patients, for this sixteen years past, that he has begun anew his former practice of Medicine and Surgery, at his Dwelling No. 19 Bridge Street, where he offers his professional services to them, as a Surgeon Dentist and Oculist: his long experience and reasonable warranties, given to those who place confidence in his skill, dexterity and performances in giving general satisfaction, will have the merit to assure an enlightened public that their patronage will not be met with, under regard to their trust, either for themselves or their children in regulating the defects of their teeth in the different operations performed in the art of Dentistry upon them.

As a Surgeon Oculist, in the varieties of diseases either chronics, inflammatories or accidentals, which afflict the Eyes and the Sight, either in young subjects or older ones; the Doctor during his late sojourn in the city of Paris, has by deep scientific and laborious studies, rendered himself eminently acquainted with them, principally with those concerning the operations performed on STRABICS SUBJECTS, or Squint Eyed.

This delicate operation which gives immediate relief to an awkward and disagreeable deformity of nature, performed by a skilful operator, is reduced to about 30 seconds, or, to the farthest, to one minute's anxiety; and, in other hurt or sensation than the feeling of a mite of sand, entering under the Eyelids, or the prick of a fine cambric linen needle, introduced in the flesh; as an existence, the only sight or inspection of the instruments used in performing the operation, will be all sufficient to indrew a Strabic, without any hesitation to desire the immediate performance of the operation.

It is necessary here to state, that in 1841, the Doctor was the First practitioner who introduced and performed the operation of strabism, in the city of New York, upon 24 Strabics subjects, with an indisputable success, after having operated upon upwards of 360 in France.

THE ONLY ORIGINAL AND GENUINE
CLIREHUGH'S
TRICOPHEROUS!

Let those now use
Who never used before,
And those who always used
Now see the more.

REDUCED FROM ONE DOLLAR
TO FIFTY CENTS PER BOTTLE!

THIS justly celebrated and widely known compound which for sixteen years has met with distinguished success wherever it has been introduced, is now reduced to such a low price as will enable it to be within the reach of all, as it is the cheapest and best article now in use. Its curative properties are almost miraculous; Scald Head, Salt Rheum, sting of insects, and all the numerous train of disagreeable cutaneous eruptions disappearing as if by magic.

ITS STRENGTHENING AND STIMULATING qualities are unrivalled, rousing into action the nerves and blood vessels which carry nutriment, imparting health to this greatest of nature's adornments (a beautiful head of hair) to the latest period of life.

FOR ERADICATING DANDRUFF it is unsurpassed. Cleansing the skin completely of every impurity, leaving the hair neither gummy, or dry, but moist, soft and silky. It is superior to all to dress the hair, as it does not soil the hat or head dress and keeps longer moist.

THE TRICOPHEROUS has gradually risen in favor with the public, by its own merits and not like the puffed and ephemeral compositions existing to-day, and swallowed in oblivion to-morrow, until it has become one of the staples of life, and looked for by all as one of the necessaries of the toilet and medicine chest.

The known popularity of the Tricopherous has occasioned many spurious articles, bearing outwardly the same name and character. Ladies and Gentlemen purchasing must therefore be careful to ask for CLIREHUGH'S TRICOPHEROUS.

Prepared by Vier Clirehugh, New York, and for sale by his only wholesale and retail agents.

ANOTHER SCIENTIFIC WONDER!
GREAT CURE FOR
DYSPEPSIA!
DR. J. S. HOUGHTON'S
PEPSIN,
OR THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE,

Prepared from RENNET, or the fourth stomach OF THE OX, after directions of DR. BEAUMONT, the great Physiological Chemist, by J. S. HOUGHTON, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Debility, and Debility, Costiveness, Nervousness, &c., by Nature's own Agent, the Gastric Juice.

One Half a teaspoonful of Pepsin, mixed in wine, will digest or dissolve *Five Pounds of Meat by its own two hours*, out of the stomach.

Pepsin is the chief element, or Great Digestive Principle of the Gastric Juice—the *Solvent of the Food, the Purifying, Preserving*, and *Strengthening* Agent of the Stomach and Intestines. It is prepared from the Digestive Stomach of the Ox, that forms an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and forming a complete and perfect substitute for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspepsia are removed. Just as they are by a healthy stomach. It is daily curing victims of Dyspepsia, curing cases of Debility, Heartburn, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The testimony Evidence upon which it is based, is in the highest degree curious and remarkable!

SCIENTIFIC EVIDENCE! Dr. Houghton's celebrated work on Animal Chemistry, says: "An artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the lining membrane of the stomach of the Ox, in which various articles of food, as meat and eggs, will be rapidly *changed, and digested, just in the same manner as they would be in the human stomach.*"

☞ Call on the Agent, and get a Pamphlet, containing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, given by the Agents, and also the above, together with Papers of Remarkable Cures, from all parts of the United States.

AS A DYSPEPSIA CURER, Dr. Houghton's Pepsin has produced the most *marvellous effects*, curing cases of *Debility, Emaciation, Nervous Decline*, and Dyspeptic Consumptions. It is impossible to give the Details of cases in the limits of this advertisement, but authenticated Certificates have been for more than Two Hundred Remarkable Cures in Philadelphia, New York and Boston alone.
